

ARTICOLI SU RIVISTE SCIENTIFICHE

1. Spermatic toxicity of diazoacetyl-glycine amide (DGA) in mice. Parodi, S., Giraldi, T., Furlani, A., Loggia, R.D. *Pharmacol. Res. Commun.* 3: 133-7 (1971).
2. Antineoplastic activity of two new diazoacetyl-glycine derivatives. Giraldi, T., Loggia, R.D., Baldini, L. *Pharmacol. Res. Commun.* 4: 237-42 (1972).
3. Effects of diazoacetyl-glycine amide on purine nucleotide and deoxyribonucleic acid synthesis in Ehrlich ascites tumor cells. Giraldi, T., Stepani, G., Baldini, L. *Biochem. Pharmacol.* 21: 3035-9 (1972).
4. Mechanism of inhibition of DNA synthesis in Ehrlich ascites tumour cells by diazoacetyl-glycine amide. Giraldi, T., Baldini, L. *Biochem. Pharmacol.* 22: 1793-9 (1973).
5. Effetti antivirali di un complesso metallorganico di Rh(I). Monti-Bragadin, C., Pani, B., Cantini, M., Giraldi, T., Mestroni, G., Zassinovich, G. *Giornale It. di Chemioterapia* 21: 109-12 (1974).
6. Effects of diazoacetyl-glycine amide on purine nucleotide metabolism in Ehrlich ascites tumour cells. Giraldi, T., Baldini, L. *Biochem. Pharmacol.* 23: 289-93 (1974).
7. Effects of some N-diazoacetyl-glycine derivatives on the growth *E. coli*. Giraldi, T., Monti-Bragadin, C., Loggia, R.D. *Experientia* 30: 496-7 (1974).
8. The effects of platinum ethylenediamine dichloride on the template activity of DNA. Giraldi, T., Taylor, D.M. *Biochem. Pharmacol.* 23: 1659-62 (1974).
9. Inhibition of bacterial growth and nucleic acids synthesis by planar complexes of rhodium(I). Monti-Bragadin, C., Giraldi, T., Cantini, M., Zassinovich, G., Mestroni, G. *FEBS Letters* 43: 13-6 (1974).
10. Antitumour action of planar, organometallic rhodium(I) complexes. Giraldi, T., Zassinovich, G., Mestroni, G. *Chem.-Biol. Interactions* 9: 389-94 (1974).
11. Effects of cupric ions on the antitumor activity of diazoacetyl-glycine derivatives. Giraldi, T., Nisi, C. *Chem.-Biol. Interactions* 11: 59-61 (1975).
12. Investigation on the oxidative N-demethylation of aryl triazenes in vitro. Giraldi, T., Nisi, C., Sava, G. *Biochem. Pharmacol.* 24: 1793-7 (1975).
13. Attivita' antitumorale di complessi metallo-organici di Rodio(I). Giraldi, T., Zassinovich, G., Mestroni, G. *Giornale It. di Chemioterapia* 22: 1-4 (1975).
14. Assorbimento e distribuzione tissulare nel topo di radiosolfo contenuto in un'acqua minerale solfurea. Giraldi, T. *Minerva Medica* 66: 1482-7 (1975).
15. Effetti emodinamici nel ratto dell'acqua minerale solfurea della fonte regionale di Arta Terme. Giraldi, T. *Minerva Medica* 67: 3999-4002 (1976).
16. Observations on the in vitro oxidative N-demethylation of 4-(3,3dimethyl-1-triazeno)-imidazole-5-carboxamide (DIC, NSC45388). Giraldi, T., Nisi, C., Sava, G. *Pharmacol. Res. Commun.* 8: 25-9 (1976).
17. Effects of N-diazoacetyl-glycine amide on the pool of 5-phosphoribosyl-1-pyrophosphate in Ehrlich ascites tumour cells. Giraldi, T., Baldini, L., Sava, G. *Biochem. Pharmacol.* 25: 725 (1976).
18. Antitumour activity of Equinatoxin. Giraldi, T., Ferlan, I., Romeo, D. *Chem.-Biol. Interactions* 13: 199-203 (1976).
19. Effects of cupric ions on the antitumour activity of diazoacetyl-glycine derivatives on the solid form of sarcoma 180 in mice. Giraldi, T., Nisi, C. *Pharmacol. Res. Commun.* 8: 279-82 (1976).
20. Antimetastatic effects of N-diazoacetyl-glycine derivatives in C57BL mice. Giraldi, T., Nisi, C., Sava, G. *J. Natl. Cancer Inst.* 58: 1129-30 (1977).
21. Antitumor action of two rhodium and ruthenium complexes in comparison with cis-diamminedichloroplatinum(II). Giraldi, T., Sava, G., Bertoli, G., Mestroni, G., Zassinovich, G. *Cancer Res.* 37: 2662-6 (1977).
22. Lysosomal enzyme inhibitors and antimetastatic activity in the mouse. Giraldi, T., Nisi, C., Sava, G. *Europ. J. Cancer* 13: 1321-3 (1977).
23. Preparation and antitumor activity of 1-aryl-3,3-dimethyl-triazene derivatives. Giraldi, T., Nisi, C., Connors, T.A., Goddard, P.M. *J. Med. Chem.* 20: 850-3 (1977).

24. Antimetastatic effects of a leukocyte intracellular inhibitor of neutral proteases. Girdali, T., Kopitar, M., Sava, G. *Cancer Res.* 37: 3834-5 (1977).
25. In vitro metabolic activation of 1-p-carboxamidophenyl-3,3-dimethyl-triazene to cytotoxic products. Abel, G., Connors, T.A., Girdali, T. *Cancer Lett.* 3: 259-64 (1977).
26. Biochemical and biological properties of cell and tissue neutral proteinases and inhibitors. Kopitar, M., Suhar, A., Girdali, T., Turk, V. *Acta Biol. Med. Germ.* 36: 1863-71 (1977).
27. Cardiovascular effects of sodium sulphide in the anaesthetized rat. Sava, G., Bertoli, G., Girdali, T. *Rivista di Farmacologia e Terapia* 9: 105-9 (1978).
28. Growth of Ehrlich ascites carcinoma and lysozymuria in mice after administration of heparin, lysozyme and their complex. Sava, G., Lunazzi, G., Callerio, C., Girdali, T. *Rivista di Farmacologia e Terapia* 9: 159-65 (1978).
29. Antimetastatic action of some triazene derivatives against the Lewis lung carcinoma in mice. Girdali, T., Houghton, P.J., Taylor, D.M., Nisi, C. *Cancer Treat. Rep.* 62: 721-5 (1978).
30. Antitumour action of rhodium(I) and iridium(I) complexes. Girdali, T., Sava, G., Mestroni, G., Zassinovich, G., Stolfa, D. *Chem.-Biol. Interactions* 22: 231-8 (1978).
31. Mechanism of the antimetastatic action of dimethyltriazenes. Sava, G., Girdali, T., Lassiani, L., Nisi, C. *Cancer Treat. Rep.* 63: 93-8 (1979).
32. Selective antimetastatic effects of N-diazoacetyl glycine derivatives in mice. Girdali, T., Guarino, A.M., Nisi, C., Baldini, L. *Europ. J. Cancer* 15: 603-7 (1979).
33. Leukemic L-1210 cell membrane modifications by cholesterol treatment. Sentjurc, M., Schara, M., Nemeč, M., Cotic, V., Pecar, S., Sava, G., Girdali, T. *Studia Biophysica* 75: 13-24 (1979).
34. The isolation of inhibitors of neutral proteinases and their specific antimetastatic effects. Brzin, J., Kopitar, M., Girdali, T., Turk, V. *Jugoslav. Physiol. Pharmacol. Acta* 14: 33-5 (1979).
35. Biochemical and biological properties of leukocyte intracellular inhibitors of proteinases. Kopitar, M., Girdali, T., Locnikar, P., Turk, V. in *Macrophages and lymphocytes, Part A* (Escoba M.R. and Friedman H. eds.) Plenum Publishing Corporation, London 75-83 (1980).
36. Antitumor activity of hydrazones and adducts between aromatic aldehydes and p-(3,3-dimethyl-1-triazeno)benzoic acid hydrazide. Girdali, T., Goddard, P.M., Nisi, C., Sigon, F. *J. Pharm. Sci.* 69: 97-8 (1980).
37. Mechanism of the antimetastatic action of N-diazoacetyl glycinamide in mice bearing Lewis lung carcinoma. Girdali, T., Sava, G., Nisi, C. *Europ. J. Cancer* 16: 87-92 (1980).
38. Antitumor and antimetastatic effects of benzenoid triazenes in mice bearing Lewis lung carcinoma. Girdali, T., Guarino, A.M., Nisi, C., Sava, G. *Pharmacol. Res. Commun.* 12: 1-11 (1980).
39. Neutral proteinase inhibitors and antimetastatic effects in mice. Girdali, T., Sava, G., Kopitar, M., Brzin, J., Turk, V. *Europ. J. Cancer* 16: 449-54 (1980).
40. Effects of sodium sulfide on bile flow in the anesthetized rat. Sava, G., Bertoli, G., Girdali, T. *Rivista di Farmacologia e Terapia* 11: 15-20 (1980).
41. Synthesis of 1-aryl-3-formyl-3-methyltriazenes, potential metabolites of 1-aryl-3,3-dimethyltriazenes. Lassiani, L., Nisi, C., Sigon, F., Sava, G., Girdali, T. *J. Pharm. Sci.* 69: 1098-9 (1980).
42. Prophylactic antimetastatic agents: dimethyltriazenes, N-diazoacetyl glycine derivatives and other neutral proteinase inhibitors. Girdali, T., Sava, G., Cuman, R., Nisi, C., Lassiani, L. in *Metastasis-Clinical and experimental aspects* (Hellman K., Hilgard P. and Eccles S. eds.) Martinus Nijhoff Publishers, The Hague 436-40 (1980).
43. Selective antimetastatic drugs (Review). Girdali, T., Sava, G. *Anticancer Res.* 1: 163-74 (1981).
44. Malignancy and tumor proteinases: effects of proteinase inhibitors. Girdali, T., Sava, G. in *Proteinases and their inhibitors. Structure, function and applied aspects* (Turk V. and Vitale L. eds.) Mladinska knjiga-Pergamon Press, Ljubljana-Oxford 45-56 (1981).
45. Effects of sodium sulfide on the bile flow in the anesthetized guinea pig. Sava, G., Girdali, T. *Rivista di Farmacologia e Terapia* 12: 27-34 (1981).

46. Selectivity of the antimetastatic and cytotoxic effects of 1-p-(3,3-dimethyl-1-triazeno)benzoic acid potassium salt, (+)-1,2-di(3,5-dioxopiperazin-1-yl)propane, and cyclophosphamide in mice bearing Lewis lung carcinoma. Girdali, T., Sava, G., Cuman, R., Nisi, C., Lassiani, L. *Cancer Res.* 41: 2524-8 (1981).
47. Effetti di farmaci antitumorali sulla crescita e forma-zione di metastasi di tumori sperimentali. Girdali, T., Sava, G., Lassiani e C. Nisi, L. in *Apporto della ricerca di base al controllo della crescita neoplastica* (SIC ed.) Idelson, Napoli 705-14 (1981).
48. Azione antimetastatica di N-diazoacetil derivati della glicina. Sava, G., Girdali, T., Baldini e C. Nisi, L. in *Apporto della ricerca di base al controllo della crescita neoplastica* (SIC ed.) Idelson, Napoli 715-9 (1981).
49. Inibitori di proteinasi ed effetti antimetastatici in topi portatori del Lewis lung carcinoma. Girdali, T., Sava, G., Brzin, J., Kopitar, M., Suhar, A., Turk, V. in *Apporto della ricerca di base al controllo della crescita neoplastica* (SIC ed.) Idelson, Napoli 721-6 (1981).
50. Antimetastatic effects and tumor proteinase inhibition by spleen intracellular inhibitors of neutral proteinases. Girdali, T., Sava, G., Kopitar, M., Brzin, J., Suhar, A., Turk, V. *Europ. J. Cancer Clin. Oncol.* 17: 1301-6 (1981).
51. Antitumor activity of N-diazoacetyl derivatives of glycine and phenylalanine against P388 leukemia and B16 melanoma in mice. Sava, G., Girdali, T., Baldini, L. *Cancer Treat. Rep.* 66: 179-81 (1982).
52. Prophylactic antimetastatic treatment with aryldimethyltriazenes as adjuvants to surgical tumor removal in mice bearing Lewis lung carcinoma. Sava, G., Girdali, T., Nisi, C., Bertoli, G. *Cancer Treat. Rep.* 66: 115-20 (1982).
53. Biochemical and biological characteristics of leucocyte proteinase inhibitors. Kopitar, M., Drobnic-Kosorok, M., Babnik, J., Brzin, J., Turk, V., Korbelik, M., Batista, U., Svetina, S., Skrk, J., Girdali, T., Sava, G. in *Biochemistry and function of phagocytes* (Rossi F. and Patriarca P. eds.) Plenum Publishing Corporation, London 233-45 (1982).
54. Mechanism of the antileukemic activity of dimethyltriazenes in mice. Sava, G., Girdali, T., Cuman, R., Lassiani, L., Nisi, C. in *Current Chemotherapy and Immunotherapy. Proceedings of the 12th International Congress of Chemotherapy.* Florence, Italy 19-24 July 1981 (Periti P., and Gialdrone-Grassi G. eds.) The American Society for Microbiology, Washington DC U.S.A. 1329-31 (1982).
55. Selectivity of the mechanism of action of antimetastatic drugs. Girdali, T., Sava, G., Lassiani, L., Nisi, C. in *Current Chemotherapy and Immunotherapy. Proceedings of the 12th International Congress of Chemotherapy.* Florence, Italy 19-24 July 1981 (Periti P., and Gialdrone-Grassi G. eds.) The American Society for Microbiology, Washington DC U.S.A. 1276-8 (1982).
56. Some further characteristics of endogenous proteinase inhibitors. Kopitar, M., Brzin, J., Drobnic-Kosorok, M., Babnik, J., Locnikar, P., Turk, V., Girdali, T., Sava, G. *Acta Biol. Med. Germ.* 41: 75-82 (1982).
57. Metabolism and mechanism of the antileukemic action of isomeric aryldimethyltriazenes. Sava, G., Girdali, T., Lassiani, L., Nisi, C. *Cancer Treat. Rep.* 66: 1751-5 (1982).
58. Methodologic problems encountered in the assay of proteinases in Lewis lung carcinoma, a mouse metastasizing tumor. Girdali, T., Sava, G., Kopitar, M., Suhar, A., Turk, V., Baici, A. *Tumori* 68: 381-7 (1982).
59. Mechanism of the antileukemic effects of 1-p-carboxamidophenyl-3,3-dimethyltriazene and its in vitro metabolites. Sava, G., Girdali, T., Lassiani, L., Nisi, C., Farmer, P.B. *Biochem. Pharmacol.* 31: 3629-34 (1982).
60. Attivita' analgesica locale del cloridrato dell'estere 2-dimetil-aminoetilico dell'acido p-etossibenzenosolfonico. Maurich, V., Girdali, T., Vio, L. *Boll. Chim. Farm.* 121: 456-9 (1982).
61. Antitumor effects of Ganu and other nitrosourea derivatives against transplantable leukemias and solid tumors in mice. Sava, G., Girdali, T. *Cancer Chemother. Pharmacol.* 10: 167-9 (1983).
62. Immunotherapy of Lewis lung carcinoma with hydrosoluble peptidoglycan monomer (PGM). Sava, G., Girdali, T., Tomasic, J., Hrsak, I. *Cancer. Immunol. Immunother.* 15: 84-6 (1983).

63. Antitumor effects of rhodium(I), iridium(I) and ruthenium(II) complexes in comparison with cis-dichlorodiammine platinum(II) in mice bearing Lewis lung carcinoma. Sava, G., Giraldi, T., Mestroni, G., Zassinovich, G. *Chem.-Biol. Interactions* 45: 1-6 (1983).
64. Effects of isomeric aryldimethyltriazenes on Lewis lung carcinoma growth and metastases in mice. Sava, G., Giraldi, T., Lassiani, L., Dogani, R. *Chem.-Biol. Interactions* 46: 131-6 (1983).
65. Synthesis and antitumor activity of N-(3,3-dimethyl-1-triazeno) benzoylaminoacids. Lassiani, L., Nisi, C., Sava, G., Giraldi, T. *Eur. J. Med. Chem.-Chim. Ther.* 18: 401-3 (1983).
66. Metastasis: mitostatic drugs. Giraldi, T., Sava, G., Cherubino, R., Lassiani, L., Bottiroli, G., Mazzini, G. in *The Control of Tumour Growth and its Biological Bases* (Davis W., Maltoni C. and Tanneberger S. eds.) Akademie-Verlag, Berlin 55-62 (1983).
67. Mechanism of the antileukemic action of DTIC and its benzenoid analog DM-COOK in mice. Sava, G., Giraldi, T., Lassiani, L., Nisi, C. in *The Control of Tumour Growth and its Biological Bases* (Davis W., Maltoni C. and Tanneberger S. eds.) Akademie-Verlag, Berlin 309-12 (1983).
68. The influence of antimetastatic drugs on L-1210 cell membranes. Sentjurc, M., Schara, M., Nemec, M., Sava, G., Giraldi, T. *Pharmaceutical Journal of Slovenia* 34: 229-38 (1983).
69. Selective antimetastatic agents. Giraldi, T. in *Proceedings of the 13th International Congress of Chemotherapy Tom 12* (Spitzky K.H. and Karrer K. Eds.) Verlag H. Egermann, Vienna 45-52 (1983).
70. Antileukemic action of p-(3,3-dimethyl-1-triazeno)benzoic acid potassium salt (DM-COOK). Sava, G., Giraldi, T., Bartoli-Klugmann, F., Decorti, G., Perissin, L. in *Proceedings of the 13th International Congress of Chemotherapy Tom 16* (Spitzky K.H. and Karrer K. Eds.) Verlag H. Egermann, Vienna 69-73 (1983).
71. Selective antimetastatic action of p-(3,3-dimethyl-1-triazeno)benzoic acid potassium salt (DM-COOK). Giraldi, T., Sava, G., Cherubino, R. in *Proceedings of the 13th International Congress of Chemotherapy Tom 16* (Spitzky K.H. and Karrer K. Eds.) Verlag H. Egermann, Vienna 168-71 (1983).
72. Effects of antineoplastic drugs on the proteolytic activity of murine metastasizing tumors. Bartoli-Klugmann, F., Decorti, G., Perissin, L., Zorzet, S., Sava, G., Giraldi, T. *Chemioterapia* 2: 363-7 (1983).
73. Antimetastatic action and hematological toxicity of p-(3,3-dimethyl-1-triazeno)benzoic acid potassium salt and 5-(3,3-dimethyl-1-triazeno)imidazole-4-carboxamide used as prophylactic adjuvants to surgical tumor removal in mice bearing B16 melanoma. Sava, G., Giraldi, T., Lassiani, L., Nisi, C. *Cancer Res.* 44: 64-8 (1984).
74. Effects of p-(3,3-dimethyl-1-triazeno)benzoic acid potassium salt on leukemic infiltration of brain and liver in mice bearing P388 leukemia. Sava, G., Giraldi, T., Bartoli-Klugmann, F., Decorti, G., Mallardi, F. *Europ. J. Cancer Clin. Oncol.* 20: 287-9 (1984).
75. Antineoplastic activity and toxicity of an organometallic complex of ruthenium(II) in comparison with cis-PDD in mice bearing solid malignant neoplasms. Sava, G., Zorzet, S., Giraldi, T., Mestroni, G., Zassinovich, G. *Europ. J. Cancer Clin. Oncol.* 20: 841-7 (1984).
76. The properties and physiological role of endogenous inhibitors of cysteine and serine proteinases. Kopitar, M., Babnik, J., Brzin, J., Kosorok, M.D., Turk, V., Rozman, B., Giraldi, T., Sava, G. *Symposia Biologica Hungarica* 25: 219-32 (1984).
77. Selective antimetastatic triazenes: a quantitative approach. Lassiani, L., Nisi, C., Giraldi, T., Sava, G., Cuman, R. *Quant. Struct.-Act. Relat.* 3: 59-62 (1984).
78. DM-COOK. Giraldi, T. *Drugs of the Future* 9: 503-5 (1984).
79. Hemostasis and mechanism of action of selective antimetastatic drugs in mice bearing Lewis lung carcinoma. Giraldi, T., Sava, G., Mitri, E., Cherubino, R. *Europ. J. Cancer Clin. Oncol.* 20: 961-6 (1984).
80. Effects of DTIC, DM-COOK and ICRF-159 on the number of circulating Lewis lung carcinoma cells detected by flow cytometry. Giraldi, T., Sava, G., Cherubino, R., Bottiroli, G., Mazzini, G. *Clin. Exptl. Metastasis* 2: 151-9 (1984).
81. Effects of dimethyltriazenes on in vitro Lewis lung carcinoma tumor lines with different metastatic capacity. Zupi, G., Corsi, A., Sacchi, A., Lassiani, L., Giraldi, T. *Invasion and Metastasis* 4: 179-88 (1984).

82. Effects of antimetastatic dimethyltriazenes in mice bearing Lewis lung carcinoma lines with different metastatic potential. Sava, G., Giraldi, T., Zupi, G., Sacchi, A. *Invasion and Metastasis* 4: 171-8 (1984).
83. Primary tumor growth and formation of spontaneous lung metastases in mice bearing Lewis lung carcinoma treated with proteinase inhibitors. Giraldi, T., Sava, G., Perissin, L., Zorzet, S. *Anticancer Res.* 4: 221-4 (1984).
84. Infiltration of liver and brain by tumor cells in leukemic mice: prevention by dimethyltriazenes and cyclophosphamide. Sava, G., Giraldi, T., Perissin, L., Zorzet, S., Mallardi, F., Grill, V. *Tumori* 70: 477-83 (1984).
85. Effetti del sodio solfuro sulla muscolatura liscia di trachea di cavie 'in vitro'. Sava, G., Perissin, L., Giraldi, T., Bosatra, A. *Rivista di Farmacologia e Terapia* 15: 37-43 (1984).
86. Inhibition of cell-surface neutral protease of Ehrlich ascites tumour cells by potassium p-(3,3-dimethyl-1-triazeno) benzoate. Steven, F.S., Brown, B.S., Hulley, T.P., Itzahaki, S., Giraldi, T., Lassiani, L. *Biochem. Internat.* 11: 153-60 (1985).
87. Proteinases and proteinase inhibition by cytotoxic and antimetastatic drugs in transplantable solid metastasizing tumors in mice. Giraldi, T., Sava, G., Perissin, L., Zorzet, S. *Anticancer Res.* 5: 355-60 (1985).
88. Prevention of leukemic spread in mice by antimetastatic agents. Giraldi, T., Sava, G., Perissin, L., Decorti, G. in *Treatment of metastasis: problems and prospects. Proceedings (Hellmann K. And Eccles S. eds.) Taylor & Francis, London & Philadelphia* 129-32 (1985).
89. Tumor cell metastasis and surface neutral proteinase: effects on antimetastatic and antitumor drugs. Giraldi, T., Sava, G., Perissin, L., Zorzet, S., Steven, F.S. *Invasion and Metastasis* 5: 336-43 (1985).
90. DTIC e suoi derivati: farmaci citotossici o antimetastatici? Giraldi, T., Sava, G., Perissin, L., Zorzet, S., Tamaro, M., Dolzani, L. *Giornale It. di Chemioterapia* 32: 43-7 (1985).
91. Alfa-recettori adrenergici e ipotensione arteriosa intradialitica. Carretta, R., Fabris, B., Fischetti, F., Bellini, G., Giraldi, T., Vasile, P., Toffoletto, L., Lo Greco, P., Campanacci, L. in *Nefrologia, Dialisi, Trapianto. Atti del 26° Congresso Nazionale della Società Italiana di Nefrologia (Wichtig ed.)*, 213-6 (1985).
92. Antimetastatic action of Dacarbazine and of its analog DM-COOK in mice bearing malignant metastasizing tumors. Giraldi, T., Sava, G., Perissin, L., Zorzet, S. in *Proceedings of the 14th International Congress of Chemotherapy. Recent Advances in Chemotherapy. Anticancer Section 1 (Ishigami J. ed.) University of Tokyo Press, Tokio* 533-4 (1986).
93. Antihypertensive activity of arylidenaminoguanidine derivatives. Mamolo, M.G., Vio, L., Fabris, B., Fischetti, F., Carretta, R., Giraldi, T. *Il Farmaco* 11: 873-80 (1986).
94. Baroreflex sensitivity in spontaneously hypertensive rats acutely treated with clonidine or guanfacine. Fabris, B., Carretta, R., Fischetti, F., Bellini, G., Giraldi, T., Campanacci, L. in *Neural mechanisms and cardiovascular disease. Fidia Research Series (Lown B., Malliani A. and Prosdoci M. eds.) Liviana Press, Padova* 557-9 (1986).
95. Effects of antimetastatic, antiinvasive and cytotoxic agents on the growth and spread of transplantable leukemias in mice. Sava, G., Giraldi, T., Perissin, L., Zorzet, S., Decorti, G. *Clin. Exptl. Metastasis* 5: 27-37 (1987).
96. Activity and inhibition by cytotoxic and antimetastatic drugs of cathepsin B-like cysteine proteinase in transplantable leukemias in mice. Giraldi, T., Sava, G., Zorzet, S., Perissin, L., Piccini, P. *Anticancer Res.* 7: 343-6 (1987).
97. Morphological analysis of metastatic potential and antimetastatic drug effects in mice bearing two lines of Lewis lung carcinoma. Grill, V., Mallardi, F., Zorzet, S., Perissin, L., Giraldi, T. *Clin. Exptl. Metastasis* 5: 233-44 (1987).
98. Modelli sperimentali e soggettività: stress emozionale, progressione e curabilità di tumori maligni nel topo. Giraldi, T. in *Atti del Convegno 'La pratica terapeutica tra modello clinico e riproduzione sociale' Trieste. Collana dei Fogli di Informazione. Centro di Documentazione di Pistoia Editore, Pistoia* 139-42 (1987).
99. Modelli sperimentali e valutazione dell'efficacia di farmaci anti-ipertensivi nell'animale da esperimento. Fabris, B., Fischetti, F., Carretta, R., Giraldi, T., Campanacci, L. *Riv. It. Biol. Med.* 7: 99-104 (1987).

100. Role of host responses in the drug treatment of metastasis. Gibaldi, T., Sava, G., Perissin, L., Zorzet, S. in *Advances in experimental medicine and biology. Cancer Metastasis, Biological and Biochemical Mechanisms and Clinical Aspects*. Vol. 33 (Prodi G., Liotta L.A., Lollini P.L., Garbisa S., Gorini S. and Hellmann K. Eds.) Plenum Press, New York and London 351-60 (1988).
101. Effects of an inducer and an inhibitor of hepatic metabolism on the antitumor action of dimethyltriazenes. Sava, G., Zorzet, S., Perissin, L., Gibaldi, T., Lassiani, L. *Cancer Chemother. Pharmacol.* 21: 241-5 (1988).
102. Is effectiveness of cancer chemotherapy influenced by stress? Gibaldi, T., Perissin, L., Sava, G., Zorzet, S., Nicpali, S., Rodani, M.G. in *Psicosomatica y cancer. Coleccion Estudios e Investigaciones*. Ministerio de Sanidad y Consumo, Madrid 73-9 (1988).
103. Platelet alpha2-adrenoceptor modifications induced by long-term treatment with indapamide in essential hypertension. Carretta, R., Fabris, B., Fischetti, F., Muiesan, S., Bardelli, M., Melchior, C., Cesanelli, R., Pizzolitto, A., Gibaldi, T., Lo Greco, P., Campanacci, L. *American Journal of Medicine* 84 Suppl. 1 B: 31-5 (1988).
